INDEPENDENT AUDITORS' REPORT

To the Board of Directors and Stockholders of
Marsco Investment Corporation:

We have audited the statement of financial condition of **Marsco Investment Corporation** as of December 31, 2007. This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of **Marsco Investment Corporation** as of December 31, 2007 in conformity with accounting principles generally accepted in the United States of America.

CONFIDENTIAL**MARSCO INVESTMENT CORPORATION****NOTES TO FINANCIAL STATEMENTS****DECEMBER 31, 2007****5. Financial Instruments with Credit Risks and Other Off-Balance-Sheet Risk**

In the normal course of business, the Company executes, as agent, securities transactions on behalf of its customers. If either the customer or a counterparty fails to perform, the Company may be required to discharge the obligations of the nonperforming party. In such circumstances, the Company may sustain a loss if the market value of the security is different from the contract value of the transaction.

In the normal course of business, the Company may pledge or deliver customer securities as collateral in support of various secured financing sources such as bank loans and securities loaned. In the event that the counterparty is unable to meet its contracted obligation and return customer securities pledged as collateral, the Company may be obligated to purchase the security in order to return it to the owner. In such circumstances, the Company may incur a loss up to the amount by which the market value of the security exceeds the value of the loan or other collateral received or in the possession and control of the Company.

The Company has a nationwide retail customer base. The Company conducts business with brokers and dealers, clearing organizations and depositories that are primarily located in the New York area. The majority of the Company's transactions and, consequently, the concentration of its credit exposures, are with customers, broker-dealers and other financial institutions in the United States. These transactions result in credit exposure in the event that the counterparty fails to fulfill its contractual obligations. The Company seeks to control its credit risk through a variety of reporting and control procedures, including establishing credit limits based upon a review of the counterparty's financial condition and credit ratings.

The Company monitors required margin and collateral levels daily and controls its risk exposure on a daily basis through financial, credit and legal reporting systems and, accordingly, believes that it has effective procedures for evaluating and limiting the credit and market risks to which it is subject.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2007

6. Commitments

The Company has a credit line of \$10,000,000 under a brokerage credit agreement all of which was available at December 31, 2007. Borrowing under the credit line incurs interest, payable monthly. Borrowings are due on demand and secured by customer securities pledged by the Company. During 2007, the company had advances under the line that were fully repaid by December 31, 2007.

The Company leases its office facilities under an agreement that expires on May 31, 2009. The lease contains provisions for escalations based on increases in certain costs incurred by the lessor. Future minimum lease payments are as follows:

Year Ended <u>December 31,</u>	
2008	\$50,596
2009	<u>21,080</u>
Total minimum future rental payments	<u>\$71,676</u>

7. Net Capital Requirements

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (SEC Rule 15c3-1). Under the alternate method permitted by this rule, net capital, as defined, shall not be less than 2% of aggregate debit items arising from customer transactions. At December 31, 2007, the Company has net capital of \$1,715,607, which was \$1,405,607 in excess of its required net capital of \$250,000. The Company's ratio of net capital to aggregate debit balances was 22.98 to 1.

8. Reserve Requirement

The Company was operating and calculating its reserve requirement in the manner prescribed by SEC Regulation 15c3-3 and pursuant to a certain relief granted by the National Association of Securities Dealers Inc. ("NASD"), predecessor to FINRA. Such exemption permitted the Company to exclude certain customer accounts with concentrated debit positions after taking into account the quality, diversity and marketability of the positions.

As of February 12, 2008, FINRA has rescinded such relief for all previously relieved customer accounts. The Computation for Determination of Reserve Requirements Under Rule 15c3-3 of the Securities and Exchange Commission as of December 31, 2007 has been recomputed to give effect to customer accounts for which no relief was granted by NASD. Consequently, a shortfall of \$58,381 existed as of December 31, 2007.
